

Kwan Yin's Message to Humanity.

Life on this planet will change forever, of that you can be sure. This is all part of Earth's transition and evolution process that comes around every 26,000 years, as the planet shifts and the Dimensions change from the 3rd dimension to the 4th dimension. Everything is speeding up now and humanity could not continue in the old 3rd dimensional way of living, the planet could not survive, it had to raise its vibration to allow humanity to go through their individual ascension process. You could say it was written in the stars that a change in consciousness was and is required for life to continue here on such a beautiful planet.

Many people are getting what is called their 'wake-up' call as they begin to say 'There has got to be more to life than this' Of course there is, when you get that realisation many changes take place at every level. You are given opportunities to make changes within your life and everything that no longer serves your higher purpose can be transformed or released. Every 7 years a human being changes, not only physically but mentally and emotionally, this is an opportunity to go within and listen to your soul as it offers messages of hope and positivity. It is up to each individual to recognise this and decide to make positive changes for a better quality of life; unfortunately not all of you hear this call, but we, as your guides and angels will never give up; we try again and again until you do get the message.

As the changes occur, you may feel in limbo, so to speak, not sure what path to take, but many of you are expanding your heart centres and you will find new people and situations come into your life as you begin your ascension process. A raising of your spiritual vibration to a higher level of understanding. You have more compassion,

kindness, tolerance, no judgement, inner peace and pure unconditional love in your heart. This doesn't happen overnight but it is the beginning of your spiritual awakening at a higher level.

The trauma you are seeing and feeling right now during this massive clearing for humanity and the planet is unprecedented, but necessary. If humanity continued along a negative and darker path, this planet would not survive. The positive of this message is about the positive changes happening daily as you have noticed by the help, love and compassion shown in such a short space of time, helping those who are suffering. You have realised that not leaving your homes is having a positive effect on the planet every day. The air isn't so polluted, the lakes and rivers are clearer, everything in nature is benefitting from your 'lockdown'. It may be frustrating, but just know in your heart it is necessary for you to play your part and help create a better world for future generations.

You will soon come out of this challenging situation with a better mind-set and expanded heart centre with a realisation that humanity has to continue shining their Light on this planet if you want to survive. It starts with just one person having a change in consciousness and like the domino effect or the ripple in the pond, it will expand throughout society and across the lands. Lead by example, for every soul that has departed this Earth has arrive safely back home and will continue to work and support you from a higher perspective, guiding and encouraging you to create a life every human deserves – a life of love, compassion, integrity, joy and inner peace. Your dear ones returning home are saying 'We trust you to make those positive changes every day' so the children arriving on this planet, who will be known as 'The Holy Innocents' are the new souls that have the most amazing heart centres and

will shine their individual Light and Love into every home they choose to settle in for they have come with a message of hope for all of humanity, please listen to them and don't put them down because they are 'only children' Many have never incarnated on Earth before, it is their chosen journey, for they could see at soul level this planet needed help and humanity requires 'new teachers'. They have wisdom beyond their years and you will know them with their big eyes, and will speak words of truth from a very young age. They will love nature, the stars and the sky for as they look up, they recognise their home. Their guides will be many of your family that have just passed over and returned home, for they knew at soul level this journey had come to an end but they wish to continue to serve from a higher perspective. Please listen to the children's messages of hope, for they are filled with so much love, laughter and wisdom. I shall also guide them on their amazing journey of discovery and I hold everyone within my heart for all time.

My Love for you all is never ending.

I am, Kwan Yin Mother of Compassion and healer of Children.

NAMASTE!
