

## Healing after Covid Vaccination

I am receiving emails from concerned Practitioners/Teachers of how to work with clients after they have had the Covid vaccination. The session is showing a lack in vibration or energy flow through the body as the healing takes place. This has concerned some of you for you feel Rahanni may not be compatible or will have a negative effect. Please don't worry; the lower vibration of the vaccine is not in alignment with the 5<sup>th</sup> Dimensional healing of Rahanni, therefore we have to work in a slightly different way.

Those people that have been told they may lose their job if they do not have the vaccine has created fear; that is understandable in the circumstances. People are being put in a very difficult position, for in their mind they do not want the vaccine, but they feel they have no choice. Before they go to have this vaccine ask them to visualise that they are surrounded by a Platinum ray of Light, even as the dose is administered, ask them to mentally see Platinum Light flowing through. [If they are not good at visualising, tell them the intent is more important.]

This will help to do 2 things, first they can release the fear of having this and 2<sup>nd</sup> the platinum ray will protect their mind as well as their body of any negative energy connected to the vaccine, allowing the mind and body to remain in balance. The high vibration of the healing, no matter what healing modality is, for it comes from the heart and the Light, will help to eradicate any side effects from so called vaccine; as this may be another fear they hold on to.

Those of you that are seeing clients after they have already had the vaccine, just work on them as usual but bring in the Platinum ray of Light whilst carrying out the session. Platinum is the highest vibration to be anchored on this planet and nothing can over-ride its protection and will work with the Rahanni healing always, for when you were attuned you received within your aura this Platinum Ray of Light.

If you have any questions with regards to this subject, please email me, but I hope this has helped in some way.

Much Love

Carol x
