

Channelling on 2/8/2023 [Numerology = 8]

This has been a very unexpected channelling for me, and as you can see in numerology above it represents the 8 as infinity [viewed as the 8 on its side ∞ **part of the sacred symbols and attunement process**]

I am aware of the consciousness of Mary Magdalene and she explains to me it is now time to reveal more indepth information with regards to Rahanni and its higher 5th dimensional connection. Let me just say, it is 10am on the 2nd of August I am having my morning coffee, having no idea of what is going to come through, I was preparing to announce the next chosen group of Ambassadors for Rahanni on 4th August 2023 not realizing Mary Magdalene had other ideas and asked me to listen intently, then write this message to you all.

Wow!, So here we go; Mary Magdalene has been amazed at the amount of lightworkers that have taken Rahanni healing to their hearts and she stated it is time to offer more information at this auspicious time during the 8 8 opening of the Lions Gate where Earth aligns with Sirius and Leo and a new cycle of time and space begins.

Mary Magdalene takes me back to 4th August 2002 the amazing night I received the vibration and connection to Rahanni Celestial Healing – you know of my journey, so no need to go through this today, but she mentions Kira, the guide who brought through all the information of Rahanni, it was infact Mary Magdalene's vibration I was communicating with during the year it took to bring through all the Rahanni information. She stated she represents the return of the Divine feminine power and expanded heart centre. To say I was stunned hearing this is an understatement, but a feeling of joy and how humble I still feel on a daily basis to have been given so much trust and love. Mary Magdalene continued; she states, at that time of the gift of Rahanni, my vibration was a slightly lower, therefore she couldn't let herself be known in her true essence, but used 'Kira' as the guide, she had to match her vibration to mine, no judgement made, it was how it was meant to be at that moment in time. I understood completely but she states now my vibration is so much higher after 21 years of connecting to Rahanni she can use my 5th D energy so much easier to communicate with me. Phew! that is a blessing.

She mentions the Light Codes of the Divine Feminine and how they are being anchored within us right now, also her vibration is held in the crystal Lapis Lazuli [Blue with Gold] she also continues to explain that every Teacher/Ambassador of Rahanni has had lives on Sirius, Andromeda and The Pleiades at some time in their existence. All of them carry the vibration of Jeshua and Mary Magdalene within their essence. The Rose also represents the connection to Mary Magdalene and Mother Mary; that is so lovely to know. We as lightworkers require so much clearing from the abuse we received in other lifetimes and this is clearing now, maybe through dreams at night or through

feeling off balance during the day, nausea, and most of the ascension signs of clearing, but these issues are fleeting and try to view them as a positive and not negative, for this is required for each one of you to be clear to raise your spiritual vibration even higher than you ever thought possible. This is needed for the 10 year completion of the New Earth.

Rahanni has also raised its vibration over this 21year period where we will feel drawn to nature more than ever. We will find in our hearts we need to connect with all life in the countryside or via the sea. This heightens your energy but can also bring you an inner peace and expand your heart centre, allowing Rahanni to connect to the 6th and 7th Dimensions of reality.

Mary Magdalene explains that Venus the planet of Love and Light is where all higher beings will reside at some point in their existence, therefore allowing them to bring forward to humanity the essence of an expanding heart centre whenever healing takes place with Rahanni Celestial Healing. What a gift and a joy, and there I was drinking my coffee with no idea of what I was about to receive.

I hope this information resonates with you and your heart centre as it does with mine.

Much love & many blessings
